Dear Sam,

Thank you very much for hosting the Global Roundtable for Sustainable Beef (GRSB) participants on Tuesday 19 September 2017.

The GRSB participants thoroughly enjoyed their time spent with you and your team and we know they learnt a great deal and found it extremely interesting. Your enthusiasm for developing a sustainable and vertically integrated production system is very infectious and we wish all the producers in our industry had your passion and thirst for knowledge in this area.

From the Cattle Council of Australia board and staff, thank you for opening your business, family and home to these international visitors.

Yours truly

Margo Andrae  
Chief Executive Officer
