Dear Sam and Adam:

Thank you for taking time out of your busy day to provide the Global Roundtable for Sustainable Beef Board of Directors, members and guests a tour of your facility. The group enjoyed hearing about the successes and challenges in running your own breeding operation – especially in the international markets.

The Hillgrove operation is quite lovely and made for an enjoyable outing for all participants. Thank you again for your time. We wish you continued success in your business and future endeavors.

Kind regards,

Ruairaidh Petre
Executive Director
